Honth o	f Hovember , 1943 . Propored by Capt. W. W. Class.
DAY	EVANTS
2nd.	Major Milliam S. Raper, promoted to Lt. Col.
3rd.	25 A/C led by Col. Turner took off and bombed Wilhelmshaven on Path- finder sircraft through 10/10 cloud. PRU photographs revealed extensive damage to ship building facilities and other property in the main city.
	damage to ship building facilities and other property in the main city. Interpolation opposition flak was meager and this group received no attacks because of excellent cover given by P-L7's and P-38's. It's. Goris and Wadley of the 368th squadron were lost due to a mid-air collision
5th.	21 A/C led by Capt. Cook took off and 18 A/C bombed the important industrial city of Gelsenkirchen in the Ruhr Valley with good results, inspite of haze and an excellent smoke-screen. hany fighters were seen but none attacked us, a real tribute to our formation flying and good cover by P-47's and P-38's. Intense A.A. Gun Fire both barrage and continuously pointed was encountered in the target area. All of our A/C returned to base.
12th.	Major John J. Hanning, relieved from duty and transfered from Eq. 306t Combardment Group (H). (Going home, "Lucky Devil").
13th.	21 N/C led by Capt. Wheeler took off to bomb Bremen. Poor visibility prevented the proper join-up of formation. 2 N/C (It. Scudder of 368th and Lt. Cosper of 367th) encountered extreme turbulence plus icing and crashed in angland. All of Lt. Scudder's plane were killed. All except Lt. Cosper successfully bailed out of his. Before leaving the Coast, the mission was recalled, but 2 N/C (Lt. Hilton 369th and Lt. Elliot 367th) unable to leaste our formation after breaking through the overcast tacked on to the 95th Group and dropped their bombs on the group leader through 10/10 cloud.
15tn.	Lt. General Sir Harold Anderson and staff visited our station, inspecting personel and equipment.

23 A/C led by Capt. Wheeler took off and 20 A/C tombed the Molybdenum mining installations at Knaben Norway. Bombing results were excellent, strike photos show a good concentration in and around the target area. It is believed this chief source of Germany's vital steel hardening material will be closed down for a considerable length of time. Enemy defenses were practically nil and all of our A/C returned safely to base.
