June 18, 1993.

Dear Russell,

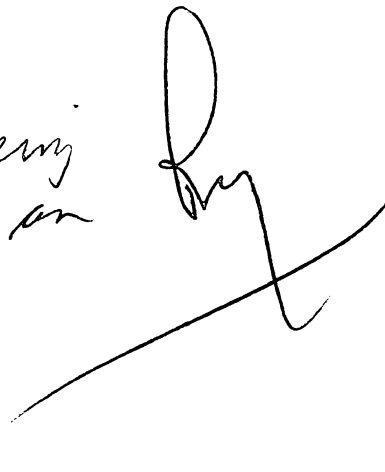

Thanks for the fine job of keeping things alive and well with the 306th Echoes and the organization in general. Sorry we have not been able to attend any of the conventions - we really don't travel that much. This is probably a combination of inertia and a lot of things to do around home.

I stayed in the AF until 1953. Went to pilot school in 1948-49 and after Korea it became clear that there would not be much of a career for an Air Force officer without a college education so we left and moved to our familys' home in California. After several years in business to accrue some wherewithall, returned to college and finished the PhD at Boulder in 1967. After a 20-year career in Academe, I retired from University of Central Florida in 1967. Fortunately, I did keep up my reserve time so am also a USAF retiree.

We recently bought ourselves a house in Albuquerque with a rent-back agreement for the sellers until October 1. So, if all goes as planned, we will move there after the first of October. We enjoy the high desert, daughter and granddaughter are close enough in Durango, Colorado, and Kirtland AFB has a very good flying club so I can keep up that activity for a few more years. Also many good golf courses in the ABQ area, municipal and otherwise. If I practice hard for another 32 years I may be able to shoot my age (100) which is about what I am doing now! And that is the catch-up of the last fifty years. And how has life treated you?

Cheers,

P.S. look forward to seeing  
the new pictures in an  
upcoming Echoes -  
Thanks R.

ROY E. CONNALLY

5/15/87

I enjoy keeping up  
with so many good  
people.

Cheers
