

More Issues of 'Echoes'

Here's my help for future issues of **Echoes!**

I enclose \$ 25 to support the production and mailing of the 306th **Echoes**. I also want to support continuing reunion activities for those who once served.

Mr. Louis G. Cook
10410 E. Prince Rd.
Tucson, AZ 85715

Dear Louis:

Enclosed are the materials which you sent me. Thanks so much, as I found them helpful. I copied the orders and am thus returning them, as I have just made this a standard practice, and besides, the paper on which they were originally duplicated is deteriorating so rapidly that I need fresh copies to work with.

The letters were interesting, and certainly give an interesting touch 30 years later to the concerns of parents while we were flying.

I am enclosing a copy of an earlier newsletter, which you probably have not seen because it contains the addresses of several of your crew members, and also because on the last page is a copy of a painting done by Lee Kessler of the mission on which he went down with Max Judas.

If you come across any other materials or people connected with the 306th, I would appreciate learning about them. Do your trips ever take you into Charlotte, NC? If so, let me know sometime when you are going to be there and I'll drive over for a chat.

Sincerely yours,

Russell A. Strong

HEADQUARTERS 306TH BOMBARDMENT GROUP (H)
Office of the Commanding Officer
United States Forces

(A-6)

APO 634,
6 November 1943.

March 12, 1988

Mr. Russ Strong, Editor
306th Echoes ,
2041 Hillsdale
Kalamazoo, MI 49007

Dear Russ:

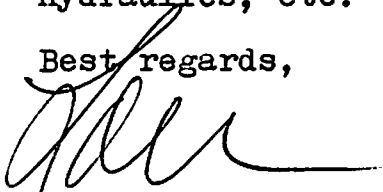

I did not receive the convention folder inside the "Echoes", and would appreciate your sending me one. I plan to attend this fall.

I have enclosed a self addressed envelope for this purpose. Also inclosed, is a small contribution to help with whatever you need to continue your fine work.

I do enjoy receiving the publication. It helps me keep up on things a little bit.

Hope to see you in Las Vegas this fall. I hope to fly my airplane, that I am building, to the convention. I have been working on it for a year now, and it is essentially done. It needs a lot of detail now such^{as} electrical system, avionics, hydraulics, etc.

Best regards,

L. G. Cook
