

JAMES CUMMINGS

22 May 1989

Dear Jim:

I have been improving my records of 306th people, and I note that I am in need of some information about you.

Do you remember what date you came to the 306th?

If you came with a crew, who was the first pilot?

Who were other members of the crew?

While I have a great many records from 1943, I do not have a copy of the special orders assigning you to the 368th. The Air Force did not regularly save these until 1 Dec 43. From that date on I have them on microfilm, but prior to that date the only ones I have are those which I have collected from other 306th officers who had retained them in their 201 files.

I will very much appreciate any information which you can give me.

Sincerely yours,
