Dear Russell,

I'm embarrassed to ask for a 2nd request for a 306th Echoes but here is what happened. My wife Betty had a stroke on June 16th and our routine was changed as usual and things got put away in not their usual places. I also want to add the reason for not being at the Savannah Reunion was I was busy having a triple heart by pass on the very same day, Nov 6th. But enough of my problems. Betty is coming along better than the Doctor expected so there is a possibility we both may be able to ~~attend~~<sup>ATTEND</sup> the reunion in St Louis. If you are unable to send the Echoes, an application blank and an itinerary of events will do. Thank you.

Yours truly
