I recently received your letter regarding membership in the 300th Bombardment Group Association. After forty plus years, it was a pleasure to know that such an organization exists.

I was a charter member, having served from Wendover through the Second Front, and have many good memories of those years.

Please add my name to the membership list of the organization. I would be interested in any printed material that you might have regarding the Group.

Sincerely,
James F. Brown GP
