

May 14, 1988

Dear Russ,

Enclosed is Special Orders No. 234 which lists many crews PAR-10 that went to AAF STA 112. Our crew was No. 22. I was taken off my crew in March 1944 to be assigned as lead navigator. This is for history only. The Newstreet crew completed tour. He is now deceased.

Frank Warner I know became a pilot (vs. Co-Pilot) and did complete his tour. I have never heard from him since April 10, 1944 the day

before I was shot down.

Sgt. Hesser was killed in a take-off crash at Thurleigh in 1944. S/Sgt. Staats died in an automobile accident in the States after completing his tour. The balance of this crew are all alive and Col. Howard and Paul Morgan attended the Wash. reunion.

This information may be worthless and the orders of dubious value. Keep up the good work.

Best Regards
W. J. Flynn USAF. RET. COL.
