Seabrook, TX 77586

Dear Ed:

In working through a lot of 306th records recently, I was caused to ponder over whether I had ever asked you if you would look carefully through your 201 file for any orders or other papers issued while you were a member of the 306th from Wendover to Thurleigh?

Special Orders during this period were not routinely saved by the organization, as it was not formally required until 1 Dec 43, by executive order of the President.

I have a good collection from the period, but am still looking for more pieces in the puzzle.

If you have your 201 file, please take a look, and either send me the originals so I can copy them, or make copies for me.

I look forward to hearing from you.

Sincerely yours,

Russell A. Strong  
Secretary and Historian
