

Bob

I was the tail
gunner on Captain
Bower's crew,
1st Ice Cold Katy
then heady 10 days
in the 369th.
I see in the 306th
paper he retired as
a general. I have a
few pictures of us
when it was 1st put
together in the states
& having him as a
squadant. If you are
at all interpled I'll get
a copy made for you.
(over) Jerry Steber

you probably have
plenty of these kinds
of platters already
about I just thought
I'd mention it!

He was a down the
line West Pointer
so I'm not surprised
he went up.
