4. BETTER LIGHT - BETTER SIGHT!

Dirty light bulbs and shades decrease light efficiency by 20 - 40 percent. In other words a clean 60 watt bulb and shade will give as much light as the average dirty 100 watt bulb. Wednesday, Thursday and Friday are therefore designated lamp cleaning days. Every lamp and every lamp shade on the station will be cleaned with soap and water before next Saturdays' Inspection.

By order of Colonel SUTTON:
