1. UNIT COLMENDATION --- Under the provisions of Army Regulations No. 600-55, 30 June 1928, the following organization is cited for exceptionally meritorious conduct in the performance of duty.

THE 369TH BOMBARDMENT SQUADRON (H), Army Air Force, United States Army, for outstanding performance of duty in action against an armed enemy of the United States in the European Theatre of Operations. In the aerial offensive against targets in Western and Central Germany, France, and other occupied territories, the 369th Bombardment Squadron (H), has established an exceptional combat record. Over a six months period, from the 23 January 1943 to 29 July 1943, this unit participated in forty-one (41) consecutive combat missions without loss of one of its aircraft over enemy or enemy occupied territory. In rendering this service the personnel of the 369th Bombardment Squadron (H) demonstrated a high degree of skill and courage. The administrative and maintenance personnel of this squadron contributed untiring effort and efficiency in sustaining the continued attacks carried out by this unit. In those operations the 369th Bombardment Squadron (H), by extraordinary skill and great courage, has given evidence of an unwavering loyalty and devotion to duty of the highest nature which reflects great credit upon this organization, the Army Air Force, and the United States Army.
