SUGGESTION BOX:

SUGGESTION: "Recently there have been many complaints by maintenance and clerical workers that they don't have time to do their work. Classes of various subjects are occupying their time. Some maintenance workers and clerical workers have more to do now that redeployment requirement must be met than ever. My own note these workers be excused from above mentioned classes so that they can get their work done? Doubling up of work and crowding eight hours work into four or six is not pleasant. Some are even working nights to get it done. It is high time someone get on the ball and exempted these fellows from routine classes.

(OVER)

DAILY BULLETIN NUMBER 194, Hq AAF Station 111, SA 13 Jul/45 continued:

SUGGESTION BOX (continued):

ANSWER: When important maintenance and clerical duties interfere with your attendance of routine classes, it is recommended that you see your Section Head or Department Head and obtain his assistance in having you excused. Only legitimate reasons will be accepted.

-2-

SUGGESTION: "Suggest that flying officers now be assigned to the Liberty Run and Officer of the Day details since we are off combat operations."

ANSWER: SB has been informed that flying officers have their hands full with our present assignment and will continue to be relieved from C.D and Liberty Run officer as long as there is operational flying to be done. It is believed all fair-minded ground officers will agree with this policy.

-3-

SUGGESTION: "Suggest that "Suggestion Box" be renamed "Pitch Box".

ANSWER: This is a SUPERIOR suggestion but SB believes that it would be degrading to the catholic senses of the more elite personnel who read the Daily Bulletin.
