DAILY BULLETIN NUMBER 121, Hq AAF Station 111, dated 2 May /45 continued:

SUGGESTION BOX

Suggestion:

"Fix a water fountain in mess hall so a fellow can fill a mess cup of water using only one hand, while other hand is holding mess kit."

Answer:

"Present water fountain can be operated successfully by placing the canteen cup in the fountain and then using the free hand to operate the water control. An alternate method would be to set the mess gear on the table and use both hands to fill canteen cup with water."
