SUGGESTION BOX:SUGGESTION: "I suggest we should try and have a swimming pool of some sort that we could swim in without fear of the water and have it on the base."ANSWER: This suggestion is a little late. We won't be here long enough and the weather will be too cold before it could be completed. Our new base in Germany has an indoor, heated swimming pool. If you are not too anxious to go home you can have your swimming pool when we move.**CONFIDENTIAL**
