# Yanks, British Join in Pursuit of Axis

# **JapAirFleet** Smashed off Guadalcanal

Yanks Get 37 of 98 Planes On First Anniversary Of Bataan

A Japanese air armada of 98 planes attempting to bomb U.S. shipping off Guadalcanal yesterday-the first anniversary of the fall of Bataan-was crushed by U.S. fighters in one of the greatest air combats in the Solomons area.

Thirty-seven aircraft were officially reported destroyed in the battle, the

reported destroyed in the battle, the Navy Department announced.

At the same time, Flying Fortresses struck for the fourth time in seven days at Jap shipping off Kavieng, New Ireland, heavily bombing an enemy convoy carrying supplies and troops for the hardpressed defenders of New Guinea.

The U.S. fighters from Guadalcanal blasted 21 Zeros, five dive-bombers and 11 other enemy planes out of the sky for a loss of one Airacobra and six Wildcat fighters. One U.S. pilot was saved.

Including yesterday's toll, the number of Jap planes shot down over the Solomons is now at 943, the Navy Department added.

No details of this latest blow to this Jap convoy off Kavieng are yet available, except that the attack, which the com-munique describes as heavy, was directed against a small convoy.

#### Seven Warships Sunk

In the first three attacks on Kavieng

—Apr. 2, 3 and 4—a shipping concentration was completely dispersed. A total of seven warships and five merchant ships were sunk or damaged, and three other warships and merchant vessels were

Three heavy attacks were made by Dauntless and Avenger dive-bombers on Vila, the Japanese air base in the central

Solomons.

An Allied medium bomber has also scored a near miss on a Japanese destroyer in the Solomon Sea.

in the Solomon Sea.

Heavy bombers on offensive reconnaissance bombed and strafed grounded planes on Cape Gloucester airfield and bombed Lae airfield. They also bombed Wewak harbor and towns at Salamana and Finchhafen. Mitchells bombed and strafed villages on the coast near Saidor, 55 miles southeast of Madang.

At Babo, in Dutch New Guinea, a small formation of Liberators bombed the town and airfield, starting explosions and fires. Another heavy bomber raided Fekfak. Medium bombers attacked Saumlaki, in Tanimber Islands, and Dobo, in Aru Islands.

in Aru Islands.

#### Japs Stopped in Burma

NEW DELHI, Apr. 8 (UP)—An attack by Japanese infantry on the Indian sector of the Burma front has been broken up by British artillerymen. The Japanese withdrew in the face of a fierce barrage and suffered heavy losses. Fighting in the area is still continuing, today's India

## No Discharges For 38s-Rule

No more applications for discharges

from men over 38 years of age are being accepted in the ETO for the time being. In a letter to commanding generals in the theater, Lt. Gen. Frank M. Andrews relayed instructions from the War De-partment that no new applications for discharge under the over-38 legislation were to be acted upon after midnight March 31. The ETO commander instructed that all applications now on hand be held in abeyance pending a statement of policy from ETO Headquarters. No

of poincy from ETO Headquarters. No new applications will be accepted.

In the United States a number of men have been relieved to aid agricultural work, particularly dairying, and for essential war industry jobs in which labor essential war industry jobs in which labor shortages exist. Those who have been discharged under the over-38 law, how-

discharged under the over-38 law, however, may be reinducted unless they are
in such jobs, Maj. Gen. Lewis B.
Hershey, director of Special Service, announced this week.

Gen. Hershey said that men already
discharged would be given until May I
to find jobs in essential industries if
physically able to perform such work.
They are expected to register with the
U.S. Employment Service. Failing that,
they will be re-classified I-A (H) as ready
for service.

Eisenhower Greets Montgomery

Gen. Dwight D. Eisenhower, supreme commander of the Allied forces in Africa, and Lt. Gen. Bernard Montgomery, commander of the British Eighth Army, shake hands as they meet on the Tunisia battlefield after Gen. Eisenhower had flown by plane to congratulate the British chief for his army's recent successes against Rommel.

# U.S. Crews Bagged 70 Planes In Raids on Paris and Antwerp

A total of 70 German aircraft were destroyed by USAAF Fortress and Liberator gunners in the daylight bombing attack on the large Renault tank and automobile factory on the outskirts of Paris Monday and in the raid the following day on the Erla Aero Engine works at Antwerp, it was announced yesterday by Headquarters, Eighth Air Force, after a careful check of crews' reports.

**Troops May Cable Gifts** 

The Paris raid, carried out against strong enemy fighter opposition at the cost of four bombers, netted the air gunners 47 enemy aircraft—mostly yellownosed Focke Wulf fighters of the Goering squadron with a sprinkling of Me109s. For Easter, Mothers' Day American servicemen still have time to

The raid the following day on the Erla works by a large formation of Flying Fortresses and Liberators accounted for 23 FW190s and Me109s. Four bombers were missing from this raid. The German fighters met the bombers as they approached the European coast, followed on in to the target and then trailed the Forts and Liberators back to the coast on the return trip.

RAF, Dominion and Allied fighters, supporting and covering both operations, destroyed ten of the enemy at a loss of eight fighters missing.

#### Maneuvers at Gibraltar

Large-scale troop maneuvers were held last night at Fortress of Gibraltar, ac-cording to a report from Paris radio.

# Foe in Full Retreat, **Loses Much Material And Many Prisoners**

U.S. Offensive Kept Much Rommel Armor Busy as Montgomery's Army Smashed Through Wadi Akarit Defenses

American and British troops, who joined forces halfway down the road between Gafsa and Gabes Wednesday with an informal "Hello there, Limey" and "Glad to see you, Yank," were hot on the heels of Rommel's retreating Afrika Korps along the coastal reaches of southern Tunisia last

In the Maknassy area, where the Americans have been advancing slowly but steadily for days, the enemy was still fighting a rearguard action, and in Maknassy Pass itself artillery duels were reported to be in progress. Many prisoners were reported to have been taken in the American advance east of El Guettar, though no official count has been announced.

Reds Encircle

**Nazi Garrisons** 

**Around Kuban** 

Isolate German Posts

In Forward Moves, Take Prisoners

MOSCOW, Apr. 8 (UP)—Soviet tac-tics of encirclement threatened today to isolate German garrisons holding out in strong defensive positions on the Kuban

front.

The strength of the German positions com-

is largely offset by their precarious com-munications in the water-logged Kuban Delta and the Nazis are fighting strenu-ously to defend the narrow strips of ground and roads which emerge above the

lery fire, but in the Syevsk area, south of Orel, the Germans launched an attack on Russian positions. They were broken up before they reached the Russian lines, and retreated, leaving about 100 dead on the

A heroic battle by the Czechoslovakian

German panzer and infantry attacks and

held its own positions against overwhelming force, was reported in today's dis-

patches from the front. The detachment, commanded by Col. Ludwig Svoboda, who escaped from Czechoslovakia after the German occupation, smashed 19 Ger-

man tanks and killed about 400 infantry-

men during the battle.

Russian reports said the Germans are

using extensively a tank-type mobile gun against Russian artillery. The gun was

described as a 75mm, cannon mounted on a 22-ton tank, with a maximum speed

of about 30 miles an hour and a fuel

range of about 90 miles.

battlefield

The junction of the American and British forces was made by small patrols in armored scout cars. There was no enemy opposition, and the two patrols just advanced along the road until they

just advanced along the road until they met. The men climbed out, shook hands and took pictures.

Rommel, it appeared last night, was in full flight. Abandoning much material, the enemy was retreating northwards along the Tunisian coast towards La Skirra—and along the road from El Guettar toward the coast.

Hard on his heels, mobile forces of the Eighth Army were repealing the processes.

Hard on his heels, mobile forces of the Eighth Army were repeating the processes that carried them right along the coast of Libya from Egypt into Tripoli, while American forces from El Guettar area were pushing forward in his wake, supported by the French.

#### Yanks Drew Off Armor

What forces Rommel was able to with-draw from El Guettar front, which he

reinforced strongly in the hope of preventing a junction of the Eighth Army with the Americans, is not yet known.

The attacks by U.S. forces in the Maknassy area gave the Axis virtually no opportunity to establish a strong flank anchor in that area.

Much of Rommel's armor was held from attacking the Eighth Army when it

Several of the isolated villages in the Delta, which are connected by the strips of land, have been taken by the Russians in the last few days and Soviet forces are

Much of Rommel's armor was held from attacking the Eighth Army when it broke through the Axis Wadi Akarit positions by the U.S. Second Corps.

The Americans particularly helped Gen. Montgomery's advance by drawing off armor from his two divisions which outflanked Rommel's right wing, Pinkley says. Rommel assigned many veterans to the triangle east of El Guettar and Maknassy in an effort to halt the Americans' advance, but Gen. Patton's Second Corps was too tough. in the last few days and Soviet forces are slowly, but surely, pushing the Germans back towards the sea.

The whole area around the mouth of the Kuban river is covered by flooded lakes and rivers with tall reeds sticking above the water. The battle is being fought under extremely difficult conditions and both sides are hampered by communication problems.

The central front remained quiet today, except for occasional exchanges of artillery fire, but in the Syevsk area, south of

was too tough.

On all three fronts many more prisoners have been taken and material captured.

The French on El Guettar front took 20 light guns among other booty.

In the north, Gen. Anderson's troops of the Anglo-American First Army smashed forward about five miles on a 12-mile front north of the Medjez-Beja road after the greatest artillery concentra-

## Iowa-London Meet in Desert

WITH U.S. FORCES, Southern Tunisia, Apr. 8 (AP)—"Hello there, Limey," shouted Sergeant Joseph Randall, of State Center, Iowa, to Sergeant A. W. Acland, of Maida Vale, London.

'Very glad to see you," was Acland's

Those were the first words spoken when the Yanks and the Tommies joined hands The two sergeants were leading recon-

naissance patrols when the historic link-up of the First and Eighth Armies was made on the macadam road 42 miles from Gabes amidst the desert wastes.

The helmeted, grinning American, and the freckled, red-haired Englishman, stepped forward and shook hands. This is Acland's own story of the meet-

ing:
"At first we thought you were Jerries because of your helmets. We had been having trouble with Jerry all night, and in the marging we have been picking

all this morning we have been picking up Italian prisoners. We were seriously considering opening fire on you.

"There was a hell of a lot of nandshaking. A small community took form on the spot. Some of the Yanks started offering us American cigarettes as soon as they saw us, and one even passed round a flask. One Yank shouted, 'Christ, what's this?' when he saw everyone ahead of him start throwing their arms round each other."

### 2 Sergeants Build Bomber Gun Mount A U.S. BOMBER STATION, England, | civilian life, credits Green with conceiv-

Apr. &-American heavy bombers in the ETO are using a new type machine-gun mount, designed by two enlisted men in their spare time, and combat crews credit the armament with aiding in the in-creased destruction of enemy aircraft.

the company said.

designated addresses.

How they spent many spare hours designing the mount and improvising materials to complete the job was told here yesterday when the Legion of Merit, Officer's Degree, was awarded to 19-year-old S/Sgt. James C. Green, of Cost, Tex., and 26-year-old Sgt. Ben F. Marcilonis, of Dearborn, Mich.

An ex-armament chief, Green is now

a prisoner of war. He volunteered for combat duty after collaborating with Marcilonis on the gun mount and failed to return from his second mission two

Marcilonis, attached to the Engineer maintenance section here and a welder in

ing the idea of a new mount.
"While he was keeping his bomber

in flying shape, Jimmy got the idea for an improved gun mount," Marcilonis said. "He talked it over with me and we went to work. It only took a week to do the job, but we had to work like hell sometimes, running back and forth from ship to shop to get measurements, fit parts

and finally instal the mount."

Marcilonis and Green installed the original mount in the plane so Green could use it when he undertook

combat duty. A shortage of material left Marcilonis without welding wire while they were constructing the armament, so he used baling wire from old crates and barbed wire,

minus barbs.
"While I was welding for Firestone, in Riverview, Mich., I learned quite a few tricks of the trade," Marcilonis said. "They came in handy for this job."

He also revealed that some of the material used for the mount was salvaged from a scrap pile.

When the new mount was submitted to Eighth Air Force officials for approval they recognized its value and immediately took steps to have it installed in bombers throughout the ETO.

Marcilonis is now working on a new tow bar, used by vehicles to haul planes around the field. He believes it will be a boon to maintenance crews who frequently bring broken bars to him for repair

In citations from Lt. Gen. Frank M. Andrews, commanding general, U.S. forces in the ETO, accompanying the awards to Marcilonis and Green, they were credited with "rendering outstand-ing service, working long and arduous hours in perfecting the highly successful armament that is undoubtedly aiding in the successful completion of many operational missions.'

#### German Propaganda

Never underestimate the enemy. That is a fundamental rule of war. It is equally important that you never underestimate enemy propaganda, no matter how silly it may sound to your ears. Many items of propaganda are believed because the original story is repeated by clever fifth columnists, then picked up by gossips and given a local twist.

Samples of original German propaganda stories beamed for American and British consumption are listed here. Notice carefully the original version and then check yourself mentally and see if you have not been guilty of discussing a local version with your buddies and friends.

The Germans beam this thought to America: " England is using our Lease-Lend help to build up a net of commercial aviation after the war and under the catchword of 'freedom of the air' will dominate the air, including our own hemisphere, just as Britannia rules the waves.

The Germans tell Britain: " The nation controlling the world's transport controls world trade. While British authorities are busy planning the post-war world they will do well to see to it that British civilian air transport and export industries are not deprived of their prosperity after the war, whether through the Atlantic Charter or the Lease-Lend Act. Lease-Lend cannot be paid for in gold or goods. The answer must be in territory. This territory is going to be supplied out of the flesh and blood of the Empire.'

The Germans beamed this thought to America: "While Reesevelt is fighting for the cause, England is fighting to preserve her Empire, to keep control of all the seas, and to add to this her control of the air, and that at America's ex-

At the same time Britain was told this German lie: "If it is paradoxical for the Yankee troops to fill the London streets, what is the name of American occupation of North and West Africa, of Iceland, North Ireland, Australia and India. Where is it going to stop? These occupations are not at the expense of the Axis powers; but at your expense."

Goebbels told America: "The Americans will bear the brunt of the fighting in Tunisia and will make costly and bloody sacrifices, with the British in the rear, cheering them on."

German propaganda told Britain:
"Even the most charitable cannot ignore the fact that most of the troops in the actual battle zones in North Africa are

Divide with propaganda and rule with force is the German aim.

#### World News

Because the Army knows that a wellinformed soldier is a more effective fighting man, the Special Service Division has inaugurated a news service to troops here and in other theaters. Under the direction of officers who are all experienced exnewspaper men, a 1,000-word summary of world news will be sent daily to a large majority of all U.S. forces no matter where stationed.

The new Army news service will cover both overseas and domestic news. Written in terse style, this news will stress both the war and the more important national happenings. As facilities permit, the service will be expanded so as to reach troops in all overseas theaters of opera-

The Domestic News Service will utilize all the regular news sources such as AP. UP, INS and Transradio. This news will be rewritten with the needs and interests of soldiers kept particularly in mind. There will be more facts about such things as terrain and tactics than is found in the average civilian periodical.

To insure that the news is fresh and up to the minute, the new Army News Service is observing a late deadline.
Writing and editing will continue until
midnight every night. Transmission is
scheduled to be completed to all points by 3 AM. This means that the summaries as they reach troops will be as timely and often more timely than the news dispatches appearing in morning newspapers

Your newspaper will, in addition to regular news services, receive this Army service. We hope through its addition to be able to give you more and better news from home.

# Hash Marks

Believe it or not, it still happens here! Believe it or not, it still happens here! Eugene A. Rose, of a postal unit, in the Army since May, 1942, and now serving overseas, has just received final notice to appear before his local draft board. We imagine he enjoyed chuckling at the phrase, "Failure to comply with this notice will result in your being declared a delinquent."

Youth must have its fling! Authorities of Louisiana State University startled the nation recently by issuing a ruling that

slacks should be worn only by those coeds whose rear-view looks well when draped with such attire. A dozen male members of the university's law school offered to serve as a jury to decide. Which all goes to prove that there is a destiny which shapes our ends shapes our ends.

Thanks to Lt. William R. Lynch, who spotted this masterpiece in a Camp Pickett paper. The M.P. is my protector; I shall not stray. He maketh me to abide by military law. He returneth me to camp. He restoreth my property. He leadeth me in the paths of righteousness for my own sake. Yea, though I walk through a stop light, I will fear no evil, for they are with me always. Their brassards and their clubs protect me and brassards and their clubs protect me and comfort me. They preparest a guard before me in the presence of mine enemies. They hold me with a steady hand when my cup runneth over. Surely Army regulations shall direct me all the days of the duration, or I shall dwell in the guard house forever.

A little guy rushed into an FBI office and excitedly offered to "put the finger on a fugitive" for \$100. Suspicious

officers fingerprinted the informer-discovered he was the guy they were looking

In a San Francisco hotel lobby a man played a pin-ball machine for several hours, pouring nickel after nickel into the slot. Suddenly he drew a gun, turned around and threatened the hotel clerk. The nickel dropper got away with \$80. (At least half of what he put in the machine, if we are any judge of slot machines) J. C. W.

Some of Maj. Trask's traps came straight from the battlefields of Africa, others were manufactured from notes by combat Engineers who search them out.

In addition to the indoor display, the school has an outdoor booby-trap course where officer candidates crawl on their hands and knees through areas planted with traps. Maj. Trask, Sgt. Kayser and two soldier-mechanics, Pvts. Charles W. Akers, of Cedar Rapids, Iowa, and Earl R. Jones, of Joplin, Mo., set the traps, start the students through the course and then tell them what errors they have made -if they have to be told.

Dummy corpses litter the ground-don't

A broken shovel sticks out of the ground-somebody else will use it if you

"I had my mother knit this sweater, just for you, Sarge!"

# Booby School Cures GI Curiosity

Men Learn to Suspect Deadly Explosives Everywhere

AN AMERICAN ARMY SCHOOL, England, Apr. 8-British and American troops advancing into African territory formerly held by German and Italian forces have been running into an infinite

variety of "booby traps"-those innocently disguised explosive charges left by the enemy to wound or kill the curious and the unwary.

From copious information, much of it gathered the hard way, Maj. H. C. Trask, of Medford, Mass., and Sgt. F. P. Kayser, of New York City, have assembled here a display room full of the dangerous little souvenirs" which forms the first booby trap school" in the ETO.

Maj. Trask, an engineer by profession and a "gadgeteer" by taste and inclination, is mighty proud of his little lethal collection. He has a right to be. Not only has he set up traps of the classic German and Italian types-he's done even better than that. He's improved on them so that graduates of his school should be able, not only to find, identify and render harmless the best the enemy can build, they can also contrive better ones them-

As a result of Maj. Trask's research and organization work every American soldier going into action will have enough knowledge to avoid and take the sting out of these pasty little scorpions of modern war.

#### Came from Africa

lift one or there may be two. try to do so.

There's a smashed wheelbarrow-try to

# U.S. Army Signal Corps Photos

Four OCS students test out the Army's mine detector (top) at a boobytrap school in England. The detector responds to any metal underground with a howl in the earphones. The white tape is strung to indicate how far the section has advanced (second man from left). A hoohy trap might be concealed under a "dead" body (bottom), and lifting the body would explode the trap. Here, OCS students study trap on training course.

Two lumps of coal-an old oil cananything and everything can be used, and

Those are outdoor traps. There are just as many types which can be set up indoors to trick tired and hungry men into making one final, fatal move.

Maj. Trask has those on display tooloaf of bread concealing a "mousetrap " detonator, a bottle of beer with as much kick as a hand grenade for anybody who lifts it off the table. There's an easy chair-with a trigger under the seat-which is considered a very unhealthy place for a tired soldier to drape his frame. When the bomb goes off he's liable to be draped all over the walls.

#### \*Three Basic Types

anxious to explain to his students that there are three basic types of booby traps. All known examples fall into one of them. They are:

1. The pressure type. This variety of booby trap mechanism responds to a push, no matter how light. It can be used in a door bell, underneath a loose floor board, in the seat of a chair or anywhere else that pressure can be expected. The trick is to arrange the bomb so that the victim is invited, by the setting, to push or press or step.

2. The pull type. This is the bomb most often used out of doors. One popular way of using it is with an arrangement of trip wires. They are placed in such a manner that a soldier, stepping through a door, or across a ditch or through a gap in a hedge gives the wire a tug which sets off the bomb. Rendering such mines harmless is one of the important things taught at Maj. Trask's school. Officer candidates are taught to spy out the tiny trip wires, trace them to the mine and render the device harmless by inserting a lock pin,

#### Under Beer Bottle

3. The release type. This firing device depends on the release of pressure which has been holding down a firing spring. Delicate in the extreme, release mines have been found under dead or wounded soldiers, held in place by a loaf of bread or a bottle of beer. They are especially dangerous to tired troops, after a day's marching, who enter abandoned houses in search of a place to sleep.

There is one sure method of rendering

move it and you're due for a ride your- | the release bombs harmless. Since they depend on the release of a very light pressure, a Mills bomb or other type of hand grenade, tossed into a suspected room will blow the hold-down out of position and explode the mine. Then, if there is anything left, the room is safe to enter

Highly confidential and not for publication are details of two gadgets displayed and explained to Officer Candidates at Maj. Trask's school.

#### Like Spark Plug

What can be said now is that the United States has an improved booby trap mechanism and a mine detector which Maj. Trask believes is the most efficient device of its kind.

Men who have gone through the booby Getting down from the theatrical effects trap school here are a very suspicious lot which can be contrived, Maj. Trask is of soldiers. They have had the most innocent objects go off with a "pop" when they touch them. That " pop " the warning of a simulated booby trap. In actual battle conditions it would be a loud crash which they probably wouldn't hear-at least they'd never have a chance to tell anybody about it.

But that little " pop "-as they crawl through a hedge, walk into a room or pick up a wallet with a sheaf of pounds peeping coyly from the corner, points out the lesson Maj. Trask is here to teach:

Trust Nothing, Suspect Everything. You live longer that way.

#### Lenten Message

MARK 11:25-" And when ye stand praying, forgive, if ye have ought against any."

In an English hospital lies Sgt. Bronislau Godlewski, a Polish American airman. Recently in a simple ceremony he was awarded the Virtuti Militaire, Poland's equivalent of the Congressional Medal of Honor, for, wounded almost to death, Godlewski had fought off German night fighters from his gunner's position as his bomber returned from a raid on Essen. After a crash landing they found him unconscious, his shattered hands still gripping his gun butts. Now his arms are gone, but he speaks without hate when discussing the

enemy. Learn to forgive . . . and you will have learned an important lesson.

# Joe McCarthy Confident Over '43 Flag Race

#### Says Present Nine Is Best To Be Had Under Circumstances

By Lawton Carver

International News Service Sports Editor NEW YORK, Apr. 8—Just a fortnight away the most revered of American sports opens the 1943 season in the major league baseball parks with the cry, "Play

Thus begins a season many said wouldn't start and that many insist won't finish. However, threatened as it is by depleted manpower and harassed by the uncertainties of the times, baseball is not yet washed out and the century-old game looks like it's here to stay. The 1944 season can't be even vaguely planned if the war is still continuing, but at least this season will get underway, which may be pretty good, considering everything.

On thing about it—now is one time when money does not talk. The rich, dominant New York Yankees are on even terms with the Philadelphia Phillies in so far as getting and keeping talent is concerned. Now they can't open the pocket-book and get players or keep them as a

book and get players or keep them as a luxury because there are no more players to be had and when Mister Whiskers puts the finger on one—he goes.

#### Cards Have Best Pitching

But the situation is such that Manager Joe 'McCarthy is prompted to name the Yanks pennant winners—almost, but not quite. Yet that's something coming from McCarthy for in normal times McCarthy figures himself way out on the limb if he even names his probable starting battery of the next day's game. Just yesterday Joe was quoted at Asbury Park as sizing up his team and its chances, "This team is all right—as good as we can get. We're probably as good as any team in the League. I'm really not afraid of any team, although I don't know yet where our opposition is coming from."

It might interest McCarthy to know that the Yankees will be short-priced favorites to repeat in the American League while the Cardinals are favored to repeat in the National at possibly the shortest odds in many years. The Brook-lyn Dodgers figure to get good nitching. But the situation is such that Manager

shortest odds in many years. The Brook-lyn Dodgers figure to get good pitching, but the Cards probably will have the best pitching in the game this coming season and they still will be best even if they lose two, three or four chuckers. And you know what wise baseball men say about pitching—it is 75 per cent of a

team's strength.

Anyway, hold your hat, buddy, here we go in just two weeks. Play ball!

# Laying Down a Bunt-In Giant Camp

# Hawkeye Grid Hopes

IOWA CITY, Iowa, Apr. 8-Things have taken a turn for the better for head football coach Jim Harris, of the University of Iowaand Jim is all smiles. At his latest practice session he had 21 men turn

On the Upswing Again

He was quite downcast last week when only seven players, two of them freshmen, turned out for the first Spring drill. What's more, Harris says he expects five or six additional players shortly.

#### Landis Sees Good Brand Of Baseball This Season

INDIANAPOLIS, Ind., Apr. 8-Baseball Commissioner Kenesaw Mountain Landis, who is visiting his son, Col. Reed Landis, chief of staff of the First Troop Carrier Command at Stout Field here, said, "I've been looking over the box scores of some practice games played this year and from all indications there are still lots of good ball players in both

major leagues.

"Of course military necessity may explode any of the teams at any time, but I think we can look forward to lots of good ball playing. It is certain to be an interesting season."

# Of Jacobs' Fight Program

NEW YORK, Apr. 8—Promoter Mike Jacobs is making plans for an ambitious summer boxing program, but if he loses two particular fighters—lightweight champion Beau Jack and featherweight titleholder Willie Pep (both New York version)—he will lose everything. The long arm of Uncle Sam is reaching out for both these young gents and the entire immediate future of boxing depends on whether they go.

Here's the way the thing works: there aren't heavyweights around now who can create a crowd, and champ Joe Louis is in the Army. The light heavyweight division is static because Billy Conn, Gus Lesnevich and the rest are in the services. The middleweight division is bereft of its champion, Tony Zale, who is in the Navy, while welterweight titleholder Freddie Cochrane is also in service.

#### Armstrong Wants Rematch

This brings everything down to the littler men. There we find lightweight champ Beau Jack with Sammy Angott the chief pretender to the throne with Bob Montgomery. The featherweight division has champ Willie Pep—per New York style—with Jackie Callura, NBA titlist, as chief contender. Then there's Henry Armstrong seeking a rematch with Jack.

Jacobs can shuffle these various fighters around, matching several fights of major caliber considering these times, but when Uncle Sam finally catches up with one, two or three of these standouts, then the whole thing folds up and there goes boxing.

Mike knows this and is making pre-parations accordingly, the idea being to stage as many Summer outdoor shows as possible before Pep, Jack and the rest are swept away for the duration.

#### Boxing at Aero Club

— BOMB GROUP, Apr. 8—Boxing sessions at the American Red Cross Aero club of this station are held three times weekly with more than 50 men turning out for instruction under Coach Lt. D. S. Matoon. A station tournament will be held in a few weeks.

#### Exhibition Baseball Games

NEW HAVEN, Conn.-The Brooklyn Dodgers battled for eight scoreless innings before scoring a 2-1 triumph over the Yale University team coached by Red Rolfe, former New York Yankee infielder. Paul Waner's single, a couple of passes to Al Sherer and Augie Galan, and a fielder's choice netted the winning runs off Yale Pitcher Bob Brutcher. Brooklyn Higbe fanned nine during five innings on the mound. . . ASBURY PARK, N.J.—The New York Yankees blanked their Newark farm hands, 14-0, in their first and only appearance at their seaside training camp here. Atley Donald, Rookie Tom Byrne and veteran Johnny Murphy held the International Leaguers to four hits. . . . BALTIMORE—The Boston Red Sox clubbed their way to an

Boston's verdict over the Pittsburgh Pirates.

# Wings Shut Out Bruins, 4-0, for Third Straight

#### Grosso Nets Three Goals In Third Game of Cup Finals

BOSTON, Apr. 8—Scoring three goals, Don Grosso paced the rampaging Detroit Red Wings to their third straight victory

Red Wings to their third straight victory in the National Hockey League Stanley Cup playoffs, whitewashing the Boston Bruins, 4—0, before more than 14,000 fans at the Boston Garden last night.

The fourth—and possibly the final game—will be played at Boston tonight.

Detroit played an outstanding team game while Boston played a hit-or-miss brand of hockey with an occasional spurt. Detroit scored first during the fourth minute of play as Eddie Wares shot a long pass to Grosso who came in fast converting before Goalie Frankie Brimsek had a chance to get set. had a chance to get set.

#### Two Near Tallies

Seven minutes later, speedy Detroit Wing Grosso took Carl Liscombe's short Wing Grosso took Carl Liscombe's short pass near the Boston blue line and ripped through the Bruin defense for a second score. Neither team scored in the second period, but Boston had two near goals when Don Gallinger fired a drive at Detroit Goalie Johnny Mowers which appeared to have entered the net, but rebounded and officials ruled it wasn't a goal. Also in the same period, Murph Chamberlain drove at Mowers, but the puck rolled around the net mouth and wasn't recorded.

In the final period, Detroit scored

In the final period, Detroit scored twice. Les Douglas stole the puck from Bruin Murph Chamberlain and hit the net with a waist high drive. Shortly before the final bell, Grosso scored for the third time with Wares credited with an assist.

## Pro Grid Team Limit Lowered

CHICAGO, Apr. 8—The National Football League has met the stringent manpower problem by reducing the maximum squad limit to 25 players and adopting a free substitution rule for one year. The League solved the transporta-

gear. The League solved the transportation problem by following the big league baseball example of training "at home." Since the 1940 season, the pro circuit had a squad limit of 33 players and a minimum player list of 22 gridders. Under the new change, mention is not made concerning the minimum squad size. League President Elmer Layden said, "That question is left entirely up to me. If a squad should drop down, for example, to '16 players, then I might deem it necessary to take measures to bolster the squad roster."

The free substitution rule is limited to one year because some coaches "feel it is not good for pro football." Under the old rule, a player could re-enter the game only once in each half. Colleges adopted the free substitution rule two seasons ago.

seasons ago.

The League voted to change the draft rule whereby it was agreed to permit the draft meeting to be held whenever Layden decides such a session is advisable. Formerly the draft meeting was held annually, but the accelerated academic program of the colleges where classes are graduated on a staggered basis caused the change.

Brig. Gen. W. S. Rumbough, head of the Signal section of SOS, attended several meetings of the school, as did Col. Theodore Arter, chief of Special Service in the ETO, and Col. E. M. Barnum, administrative officer in charge of the Post Exchanges organization.

Among those who served as instructors for the course were Col. Neal Creighton, Maj. K. C. Chatwin and Maj. E. H. Gilman, of the Air Force; Maj. J. L. Holbrook and Capt. Fred Hanna, of SOS; Capt. Eddie Dowling, of ETO; Donald Corrie, British War Office head of correspondence courses; A. Clow Ford, of the University of London, and C. S. Williams, founder of the Anglo-American Brains Trust.

American Brains Trust.

A model library display was provided by Lt. Col. Sir Thomas Moore, M.P. Other English participants were Col. David H. Cole, Lt. Col. E. C. Priestley, head of ABCA, and Air Vice Marshal D. Colyer, director-general of the Air Ministry's special service organization.

#### Sister of Five Brothers Lost at Sea Joins WAVES

SAN FRANCISCO, Apr. 8—The five Sullivan brothers, all U.S. sailors, lost their lives when the cruiser Juneau was sunk by the Japs in the South Pacific. Today a sixth Sullivan enlisted.

Latest member of the family to wear the uniform is Genevieve Sullivan, 26 sister of the five Sullivan brothers, who joined the WAVES the day after a new destroyer, named for her brothers, was launched. The family comes from launched. The family comes from Waterloo, Iowa.

HEADQUARTERS, SOS, England, Apr. 8—A salvaged ice-cream freezer, plus mess hall supplies of powdered milk, egg

powder, water and sugar, is providing ice cream for an outfit here which makes them the envy of all who hear about it.

Driven to desperation after long, lip-smacking talks about this delectable, non-existent luxury, soldiers of the unit combed the area and triumphantly dis-

covered an old, decrepit freezer discarded

# Veteran of 44 RAF Operations Against Axis Joins U.S. Navy Pins U.S. DFC

#### American Flier Took Part In Three of 1,000 Plane Raids

#### By Tom Bernard

Stars and Stripes Navy Editor

John H. Stickell, American veteran of 44 RAF bombing operations over Germany and Italy, has been accepted as a lieutenant in naval aviation at London headquarters of the U.S. Naval Forces

A pilot in the RAF's first 1,000-bomber raid on German territory—at Cologne, May 30, 1942, and in attacks on Berlin, the Ruhr and other Nazi targets— Stickell is 28. Before he joined the Royal Canadian Air Force at Windsor, Canada,

in 1940, he was a farmer at Gilson, Ill.

Stickell made two other 1,000-plane raids—on Essen and Hamburg—and 14 operations against such German cities as Bremen, Frankfort, Dusseldorf and Duis-

berg.
"K for King," Stickell's Stirling, struck
first at Kassel, a German industrial railroad center.

From Kassel, Stickell, his crew and "K for King," turned to Osnabruck and Karlsruhe, other industrial towns, but then heavy weather forced a temporary stop on German operations and his squadron was diverted to Italy. He made the round trip across the Alps six or seven times. Stickell called the Italian raids "joy-

"The defenses were lousy," he added.
"We had little trouble from either flak
or fighters."

When the USAAF and RAF started their "round-the-clock" bombing of their "round-the-clock" bombing of Germany and German-occupied territory in February, "K for King" was in the front lines again—always over Germany. In February and March he made many operational trips—twice to Hamburg, three times to Wilhelmshaven, twice to Berlin, twice to Nuremburg, twice to Bremen and to Munich, Stuttgart and Mainz.

Mainz.

"Hamburg and Bremen were our toughest targets," he admitted. "Those Jerry night-fighters are aggressive, well

equipped and fighting demons."

Of Berlin, which he raided twice,
Stickell says little. His first trip, on Mar.

1, was "most successful." It was the
heaviest raid ever made on the capital,
the bombing which left 30,000 people
homeless homeless.

Although he made two tours of duty, Stickell was never wounded. Only two of his crew were injured—the navigator over Essen and a tail gunner on a Bremen

Stickell's toughest flight was over

Mainz.

"We made the target all right and and started the return trip. Over Coblenz we were caught in a cone of searchlights of computation and a refresher course.

By Yanks, Soviets in Iran

TEHERAN, Iran, Apr. 6 (AP)—With an American soldier glee club singing the Internationale and a Soviet Army band playing the Star Spangled Banner, Army Day was observed here with transfer of

a plane assembled by Americans in Iran,

symbolic of growing aid to Russia.

Russian Maj. Gen. Ivan Obrazkov accepted the new plane and expressed satisfaction with the help Russia is getting

from the U.S.A.

There was no official celebration of Army Day in the ETO or America.

Show, Dance at Duchess Club

at 12,000 feet and were passed from beam to beam for 16 minutes. Every position on the plane was pierced by heavy flak which mushroomed all around the ship. which mushroomed all around the ship.
It seemed as if they were throwing every piece of steel in Germany at us. Shrapnel whizzed by my head. Another chunk just missed the second pilot and the observer. Every man in the plane had a narrow escape, but none of them was hit," Stickell recalls.

The plane was the only one in the light

The plane was the only one in the light and it got the works, according to Stickell. From 12,000 feet he maneuvered the plane down to the deck-under 500 feet-attempting to escape the explosions

and an attacking fighter. Still over Germany he managed to elude the lights, gain altitude and make his home drome, where he landed "K for King" on a flat tire.

Stickell was awarded the DFC last October. He says it was "for consistent good work "following three or four raids.

Decorations also went to the wireless operator, the enginer and the rear gunner.

"I always managed to get away from Jersy so the ship has no credits," explained Stickell.

An amateur motorcycle builder and racer in civilian life and assistant to his father who operates several Illinois farms, Stickell went over the border to Windsor, Canada, in 1940 and enlisted in the RCAF. His brother, Lawrence, an Illinois

# Celebration of Army Day Doubts Axis Has Big Air Reserve

#### Alabama Major Gets Medal From Lord Trenchard On Tour of Airfields

A U.S. BOMBER STATION, England, Apr. 8—Marshal Lord Trenchard, "father of the Royal Air Force," stopped here on a tour of USAAF operational stations in Britain yesterday to pin the Distinguished Flying Cross on Maj. Paul L. Fishburne, of Montgomery, Ala., during ceremonies attended by 50 officers of the Eighth Air Force.

The award, previously announced, was for "exceptionally meritorious service"

The award, previously announced, was for "exceptionally meritorious service" while leading a group of Flying Fortresses on the Mar. 4 bombing raid against the Ruhr's key railroad center in Germany.

The citation accompanying the award was read by Maj. Gen. Ira C. Eaker, commanding general of the Eighth Air

Force.
"The group was attacked incessantly before reaching the target during the bombing run and on its return journey."
Gen. Eaker said. "The superb leadership and skilful airmanship of Maj. Fishburne on this occasion made possible the success of a highly important mission and the destruction of 18 enemy planes by gunners

of his group."

Other high-ranking Air Force officials present were Air Commodore A. C. H. Sharp, deputy chief of staff to Gen. Eaker; Brig. Gen. Newton D. Longfellow,

commanding general, Eighth Air Force
Bomber Command, and Brig. Gen. Frank
A. Armstrong, of Bomber Command.
Earlier in the day Lord Trenchard
inspected the B17, "The Eight Ball," at
another bomber station. He was conducted by Lt. Col. George Robinson, of Los Angeles, group executive officer.
